**INTRODUCTORY COURSE**  
**TRY IT OUT!! .5 Credits**

## INTRODUCITON TO FORENSICS

This Short Block Course is intended as a brief introduction to the process of forensic investigation, and includes processing crime scenes, collecting various types of evidence, and learning through lab experiences how various forensic examiners determine the usefulness of the evidence in proving guilt beyond a reasonable doubt. Topics that we will study include fingerprints, blood spatter, shoe impressions, DNA and Forensic anthropology and entomology. Guest speakers and videos, in addition to labs, will be used for a more adequate coverage of some topics.
